

Telescopic Cover Support, short

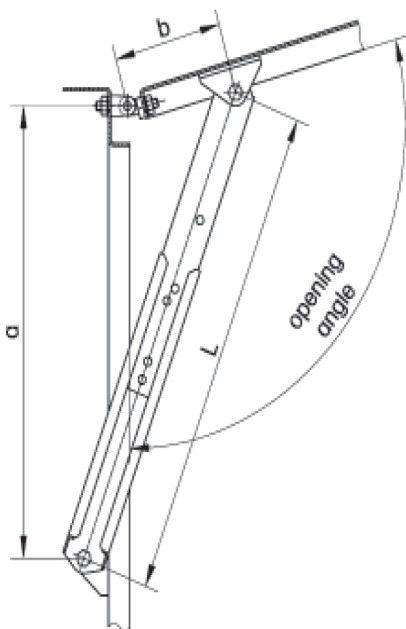

Telescopic cover support for covers and desk-leaves with automatic locking and release device. Extending the telescopic cover support completely, the concealed catch lever automatically gets into the locking position. A 3cm retraction makes the support engaging safety. Renewal extending, makes the catch lever getting into the free-run position and the telescopic cover support can be retracted.

- HD design: cam plated individually riveted and catch lever made of SUS

Material:-

- Inner-and outer rails, mounting angles and cam plated: steel, zinc plated
- Catch lever: Stainless steel (cast)

Part No: 230-9001.00.00000
