Specification

Aluminium

Plastic coated
black **SW**

RAL 9005 
textured finish

red **RT**

RAL 3000 

anodized **EL**

 natural colour

blank **BL**
tumbled

Information

Cabinet "U" handles GN 565 are produced from profiled aluminium extrusions; their special features are their rigidity and smooth surface.

Good design and ergonomical shaping were essential for the choice of the profile.

The manufacturing process (bending) allows the production of **special lengths** in relatively small quantities.

*Stainless Steel-Cabinet "U" handles
GN 565.5*
