

Basic door seals for lids, doors and panelling, made of EPDM.

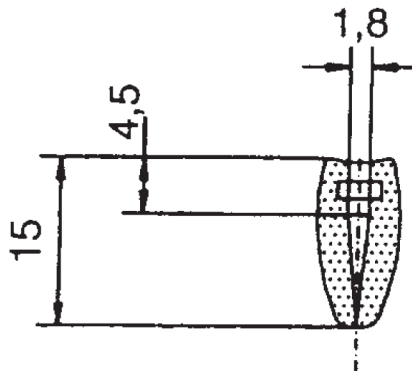

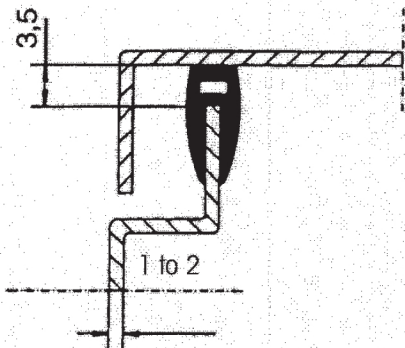

Simple fitting: these seals are simply pushed onto sheet metal edges. If necessary seals have to be glued.

No radius or mitring necessary: no warping of folds.

Tolerances:

EPDM: DIN 7715 E2

Example of application

Colour	Material	Part Number
Black	EPDM	209-0302

packaging unit = 50 m
