

Handle

Handle Ø30mm in various lengths

- The handle can be composed using variable tube length
- For vertical and horizontal application
- The great diameter of the tube guarantees a sure and firm grab
- Well fitting and firm seat of the tube in the center support and the end pieces
- For the total size please add 68mm to the tube length
- The optional usable center supports make this handle suitable especially for large and heavy doors and controlling enclosures
- The center support is optional but should be applied for tube length over 466mm
- Fastening from inside by hexagon head screw and nut, or from outside by cylinder head screw and nut.
