Panel Preparation

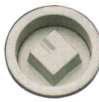

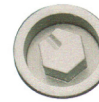

Flush Vise Action® Latch (cont.)

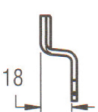

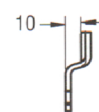

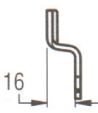

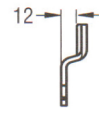

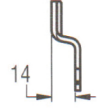

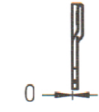

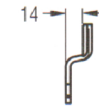

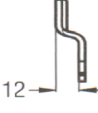

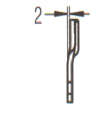

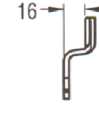

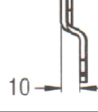

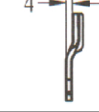

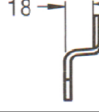

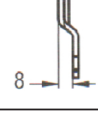

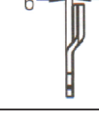

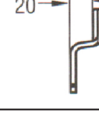

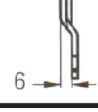

How to Order:-

1. Choose a head style and finish (see below)
2. Determine the total grip by adding the following items together:-
 - Outer door thickness
 - Compressed Frame Gasket
 - Frame thickness
3. Find your total grip in the pawl table. If your grip is between two choices, use the smaller one.
4. Use the 2 digit pawl type code (XX) that corresponds to your grip and outer door thickness to complete your latch assembly Part Number

Latch are individually packages. For layer packaged latches (50 pieces minimum, sold in multiples of 50) add -13 to the part number. Example: **E3-1410-XX1-13**
